## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on April 10, 2006 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hewes (US 4,049,057).

The claimed structure reads exactly on the reference's structure when members (42), (54), and (46) of Hewes are respectively considered as “housing”, “end connections” and “reclosable pressure relief valve” as recited.

### ***Claim Rejections - 35 USC § 103***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 2, 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hewes '057 in view of Mundt (US 3,292,708) or Thornton (US 2003/0164236).

Art Unit: 3672

Hewes '057 discloses the invention as claimed except for blade(s) on the external surface of the housing. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the housing or tubing Hewes such blades as claimed because either Mundt or Thornton teaches providing a downhole tubular with a centralizer including such blades in order to maintain the tubular centered, stabilized or protected (see figures 1 and 2 in Mundt and figures 15a and 15b in Thornton).

### ***Response to Arguments***

6. Applicant's arguments with respect to claims 1-4, 17 and 18 have been considered but are moot in view of the new ground(s) of rejection.

### ***Allowable Subject Matter***

7. Claims 3-16 and 19-34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
